

Rondo 1-b Warsaw

Skidmore, Owings and Merrill LLD/Chicago, 2006

At 194 m, the Rondo 1-b is third highest skyscraper in Poland. It has 40 floors and total floor space of over 70,000 m². The building offers high-quality rooms in modern architecture. Among others, FRONTEX, the "European Agency for Operational Cooperation at the External Borders of the European Union" has its head office here.

The building was equipped with suspended ceiling tiles throughout. Clip-in tiles with 1620 perforation were used in the office rooms and corridors. The sanitary rooms were equipped with lay-in tiles.
